

## Nano-Silicate-Reinforced and SDF-1 $\beta$ -Loaded Gelatin-Methacryloyl Hydrogel for Bone Tissue Engineering [Retraction]

Shi Z, Xu Y, Mulatibieke R, et al. *Int J Nanomedicine*. 2020;15:9337—9353.

We, the Editors and Publisher of the *International Journal of Nanomedicine* are retracting the published article.

A third party raised concerns regarding repeated sections of images in figure 3 that should represent different experimental conditions, as well as two images in figure 1F which are mirrored. The authors then contacted the journal to raise significant concerns about the reliability of the conclusions presented in the article.

Following an investigation, the Editor and Publisher agree with the concerns raised. Therefore, all parties have agreed to retract the article to ensure correction of the scholarly record.

We have been informed in our decision-making by our editorial policies and the COPE guidelines.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.

### Publish your work in this journal

The International Journal of Nanomedicine is an international, peer-reviewed journal focusing on the application of nanotechnology in diagnostics, therapeutics, and drug delivery systems throughout the biomedical field. This journal is indexed on PubMed Central, MedLine, CAS, SciSearch®, Current Contents®/Clinical Medicine, Journal Citation Reports/Science Edition, EMBase, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
