

Interaction of recombinant and native Ca_v2.3 E-/R-type voltage-gated Ca²⁺ channels with the molecular chaperone Hsp70 [Corrigendum]

Radhakrishnan K, Krieger A, Tevoufouet EE, et al. *J Receptor Ligand Channel Res.* 2011;4:29–40.

On page 39 under Acknowledgments Dr Marco Weiergräber is incorrectly mentioned. Dr Weiergräber wishes to make it known that the statement does not reflect the truth and he did not agree to being included in this manner.

Journal of Receptor, Ligand and Channel Research

Dovepress

Publish your work in this journal

The Journal of Receptor, Ligand and Channel Research is an international, peer reviewed, open access, online journal. The journal welcomes laboratory and clinical findings in the fields of biological receptors, ligands, channel and signal transduction research including: receptors and signaling; ligands; transporters, pores and channels; binding and activation; receptor

regulation; role of receptors in diseases and their treatment; molecular basis of membrane structure and functions; molecular models of membranes. The manuscript management system is completely online and includes a very quick and fair peer-review system. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
