

LncRNA SNHG16 Drives Proliferation and Invasion of Papillary Thyroid Cancer Through Modulation of miR-497 [Retraction]

Wen Q, Zhao L, Wang T, et al. *Onco Targets Ther.* 2019;12:699–708.

requested to retract the article. The Editor has agreed with this decision.

At the request of the authors, the Editor and Publisher of *OncoTargets and Therapy* wish to retract the published article. Since publication the authors have been unable to reproduce the results reported in this article. The authors were also unable to locate all the original raw data for their study and to ensure the integrity of the publication record

Our decision-making was informed by our policy on publishing ethics and integrity and the COPE guidelines on retraction.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.

Publish your work in this journal

OncoTargets and Therapy is an international, peer-reviewed, open access journal focusing on the pathological basis of all cancers, potential targets for therapy and treatment protocols employed to improve the management of cancer patients. The journal also focuses on the impact of management programs and new therapeutic

agents and protocols on patient perspectives such as quality of life, adherence and satisfaction. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
