

LncRNA GA-Binding Protein Transcription Factor Subunit Beta-I Antisense RNA I Inhibits Renal Carcinoma Growth Through an MiR-I246/ Phosphoenolpyruvate Carboxykinase I Pathway [Retraction]

Gao S, Zhang F, Sun H, Yang X. Onco Targets Ther. 2020;13:6827-6836.

The Editor and Publisher of *OncoTargets and Therapy* wish to retract the published article. Concerns were raised regarding the alleged duplication of images in Figures 2 and 4. Specifically:

- Figure 2D, panel 786-o Ad-Vector appears to have been duplicated with Figure 4D, panel 786-0 GABPB1-AS1 +siPCK1.
- Figure 2D, panel 786-o Ad-GABPB1-AS1 appears to have been duplicated with Figure 4D, panel GABPB1-AS1.
- Figure 4D, panel GABPB1-AS1+siPCK1 appears to have been duplicated with Figure 4E, panel caki-1 Vector.

The authors responded to our queries but were unable to provide a satisfactory explanation for the alleged duplication or adequate raw data relating to the study. The Editor determined the findings of the study were invalid and requested for the article to be retracted.

Our decision-making was informed by our policy on publishing ethics and integrity and the COPE guidelines on retraction.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as "Retracted".

OncoTargets and Therapy

Dovepress

Publish your work in this journal

OncoTargets and Therapy is an international, peer-reviewed, open access journal focusing on the pathological basis of all cancers, potential targets for therapy and treatment protocols employed to improve the management of cancer patients. The journal also focuses on the impact of management programs and new therapeutic agents and protocols on patient perspectives such as quality of life, adherence and satisfaction. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit http://www.dovepress.com/testimonials.php to read real quotes from published authors.
