

Necroptosis-Mediated eCIRP Release in Sepsis [Corrigendum]

Reilly B, Tan C, Murao A, et al. *J Inflamm Res*. 2022;15:4047–4059.

The authors wish to advise of a typographical error in the legend of Figure 4 on page 4053. The text “Necroptosis attenuates lung injury in CLP-induced sepsis” should read “Necroptosis inhibitor necrostatin-1 attenuates lung injury in CLP-induced sepsis”.

The authors apologize for the error.

Publish your work in this journal

The Journal of Inflammation Research is an international, peer-reviewed open-access journal that welcomes laboratory and clinical findings on the molecular basis, cell biology and pharmacology of inflammation including original research, reviews, symposium reports, hypothesis formation and commentaries on: acute/chronic inflammation; mediators of inflammation; cellular processes; molecular mechanisms; pharmacology and novel anti-inflammatory drugs; clinical conditions involving inflammation. The manuscript management system is completely online and includes a very quick and fair peer-review system. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
