

Silencing of Long Noncoding RNA LINC00346 Inhibits the Tumorigenesis of Colorectal Cancer Through Targeting MicroRNA-148b [Retraction]

Li T, Wang B, Zhang L, Cui M, Sun B. *Onco Targets Ther.* 2020;13:3247—3257.

We, the Editors and Publisher of the journal *Oncotargets and Therapy* have retracted the following article.

Following publication, concerns were raised in September 2024 regarding Figure(s) 3A and 3B. In November 2024, the authors contacted the journal to request retraction due to missing data.

When asked for further information and an explanation for the image concerns, the authors were unable to address the concerns raised.

As verifying the validity of published work is core to the integrity of the scholarly record, we are therefore retracting the article. The corresponding author listed in this publication has been informed.

We have been informed in our decision-making by our editorial policies and the COPE guidelines.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as 'Retracted'.

Publish your work in this journal

OncoTargets and Therapy is an international, peer-reviewed, open access journal focusing on the pathological basis of all cancers, potential targets for therapy and treatment protocols employed to improve the management of cancer patients. The journal also focuses on the impact of management programs and new therapeutic agents and protocols on patient perspectives such as quality of life, adherence and satisfaction. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
