## Course Overview

---

This [module](#) is also available as a concatenated page, suitable for printing or saving as a PDF for offline viewing.

### **MET CS693**

#### **Digital Forensics**

This course presents students with a comprehensive understanding of digital forensic principles and the collection, preservation, and analysis of digital evidence. Students will learn about the importance of forensic principles and procedures, legal considerations, digital evidence controls, and the documentation of forensic analysis. Course topics will include computer and network technologies, operating system architectures, disk structures, and file system analysis. Students will develop an understanding of the different applications and methods for conducting network and digital forensic acquisition and analysis. This course will incorporate laboratory exercises and demonstrations to reinforce practical applications of digital forensic theory.

#### **Technical Note**

The table of contents expands and contracts (+/- sign) and may conceal some pages. To avoid missing content pages, you are advised to use the next/previous page icons in the top right corner of the learning modules.

## Course Objectives

---

At the successful completion of the course, you will have developed a comprehensive understanding of digital forensic principles. You will be able to:

- Describe the attributes of file systems and storage media.
- Identify potential sources of electronic evidence.
- Understand the importance of maintaining the integrity of digital evidence.
- Demonstrate the ability to perform basic forensic data acquisition and analysis using computer and network-based applications and utilities.
- Demonstrate the ability to accurately document forensic procedures and results.
- Identify career opportunities for digital forensic professionals.
- Demonstrate the ability to conduct research to develop an in depth understanding of a topic relating to digital forensics.

## Course Outline

---

- **Readings** - Each module has both textbook readings and online readings. Your professor may suggest additional readings during the course.
- **Discussions** - There are both class and group threaded discussions for each module. These discussions are moderated by your facilitator. Postings for each discussion should be completed by the assigned due dates. There are also general discussions boards, which are not graded, for you to use to discuss any issues with your classmates. Please see the Class Discussion and Users and Groups menus on the home page for more details.
- **Assignments and labs** - There are assignments and labs that are due throughout the course. Please access from the Assignments menu.
- **Midterm and Final Exams** - Assessments can be accessed from the Assessments menu.

## Module 1: Digital Forensics and Incident Response

Overview of Digital Forensics and Incident Response and Incident Response and Investigations: Legal Aspects of Digital Forensics.

## Module 2: Computing and Network Devices

Introduction to Computing and Network Devices and Operating System Architecture and Disk Structures.

## Module 3: Digital Forensic Acquisition and Authentication

Principles of Digital Forensic Acquisition and Authentication and Digital Evidence Handling and Processing Digital Forensic Media Acquisition, Midterm Examination

## Module 4: Digital Forensic Analysis

Principles of Digital Forensic Analysis and Applications and Digital Forensic Media Analysis (UNIX/Linux).

## Module 5: Network Forensic Analysis

Principles of Network Forensic Analysis (Laboratory Session) and Digital Forensic Media Analysis (Microsoft Windows)

## Module 6: Forensic Reports and Testimony

Forensic Reports and Testimony Special Topics in Digital Forensics

## Module 7: Final Exam and Wrap-up

You will prepare for and take the proctored final exam.

The course will remain open two weeks after the final exam so that you can continue discussions and ask any questions about Digital Forensics, your grades, or the course. This is also a time when we enter into a dialogue to learn from you how we can modify the course so that it better meets student needs.

## Instructor

---

### Dustin Navarro, BS EE, M.S. CIS

Computer Science Department  
Metropolitan College  
Boston University  
1010 Commonwealth Ave, Room 250  
Boston, MA 02215

**Office Hours:** Email me in Online Campus to arrange a time to meet online. I am always happy to connect with students outside of the live classrooms.

**Office Phone:** (530) 400-5178

**Email:** [dnavarro@bu.edu](mailto:dnavarro@bu.edu)

Dustin Navarro is a part-time faculty member of Boston University and has many years of experience in IT System Management and Administration in both the government sector and in private industry. Mr. Navarro has been exposed to some significant digital forensics cases in his travels, particularly during stints in e-discovery at an AMLAW 100 law firm.

Mr. Navarro has substantial business experience in network communications, project management, and digital forensics and has frequently been asked to develop coursework in these subjects.

Mr. Navarro holds a Bachelor of Science in Electrical Engineering from the University of California at Davis, a Master of Science in Computer Information Systems Security from Boston University, and is a VMWare Certified Professional (VCP).

## Original Course Instructor

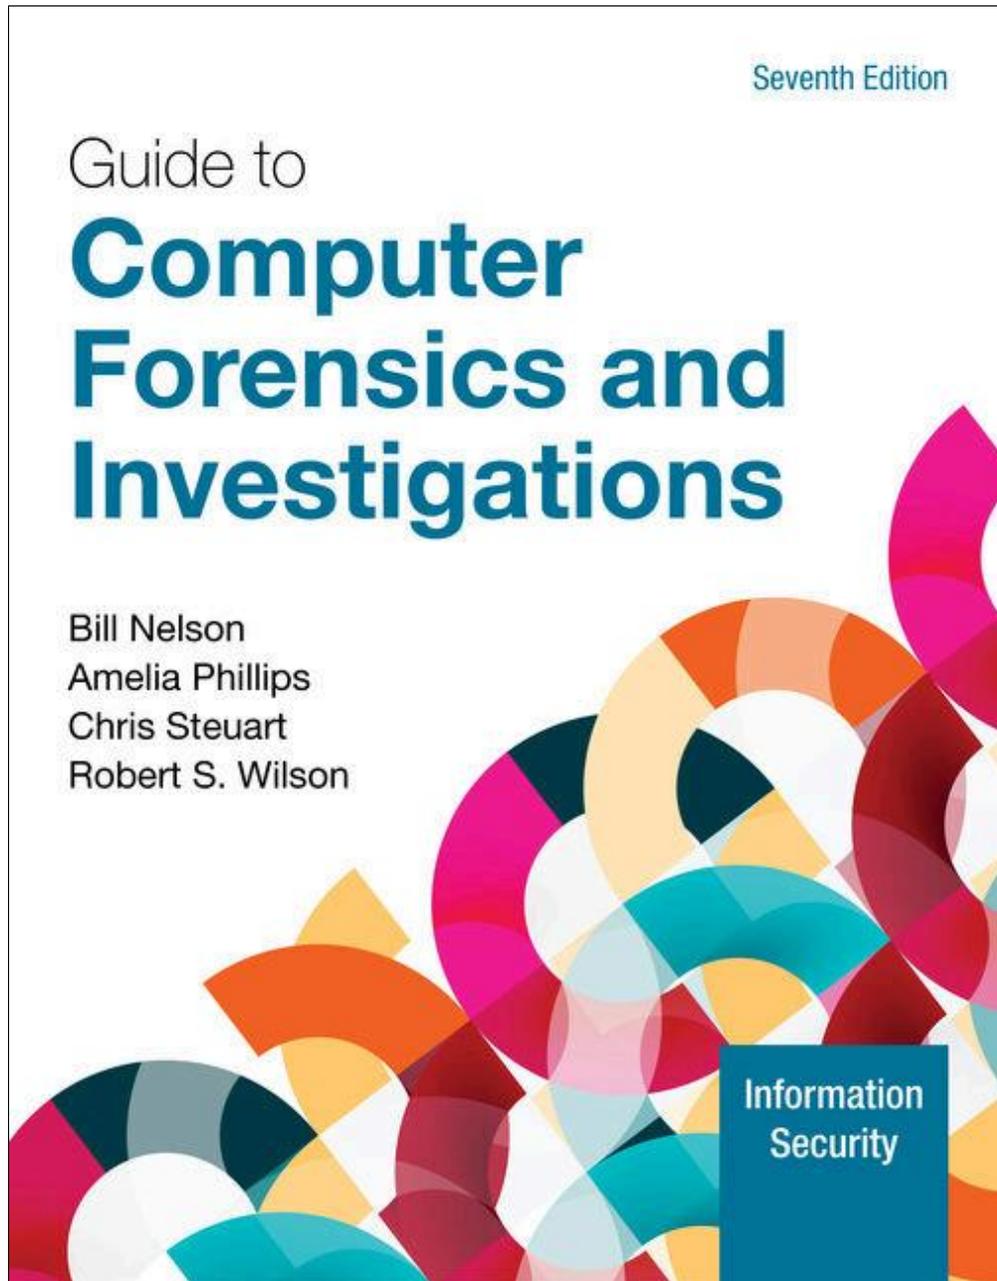

Vijay Kanabar is a professor at Boston University and has been consulting and teaching in the applied areas of IT and Project Management for more than 25 years in the US and Canada. He has authored two database books—*An Introduction to Structured Query Language* (Wm C Brown now McGraw-Hill) and *XBase for the True Beginner* (McGraw-Hill)—and has been recognized with awards for outstanding teaching and research. He has substantial business experience and is frequently invited to present seminars at conferences. Dr. Kanabar holds graduate degrees in Computer Science from Florida Tech and a PhD in Information Systems from University of Manitoba and is a certified Project Management Professional (PMP).

## Course Materials and Resources

---

### Required Book and Online Access

## Welcome To First Day™ Delivery For Your Course

To enhance your learning experience and simplify access to the right materials for your class, your course materials have been integrated directly into your course.

### Benefits of The Program

- Exclusive preferred pricing
- Guaranteed the right materials
- Single Sign-On
- Ready to go on day one
- Course materials charge will be placed on your student account
- Option to Opt-Out on the first day of class.

### Accessing Your Materials

To access the required materials for your course, click on *Course Materials (Barnes & Noble)* in the left-hand menu in Blackboard. To navigate back to the course, click on the course title at the top left of your Blackboard screen.

Boston University will bill you at the discounted price as a course charge for this course. Please be advised it is NOT recommended that you Opt-Out, as these materials are required by your professor to complete the course. You can choose to Opt-Out on the first day of class, but you will be responsible for purchasing your course materials at the Opt-Out price. For more information and FAQs visit Barnes and Noble at Boston University [customer care page](#).

An optional loose-leaf print book is also available through [Barnes and Noble at Boston University bookstore](#) by entering your course information in the Course Materials & Textbooks section.

## Course Downloads and References

### ***Forensic Examination of Digital Evidence: A Guide for Law Enforcement***

## Live Classroom Discussions and Archives

There will be synchronous Live Classroom discussions that will be announced during the course. These sessions will be archived for further viewing. Your participation, while not mandatory, will be valuable to you and the entire class. In order to participate in these discussions or to access the archived sessions, you will need to go to the Live Classroom links.

## Boston University Library Information

Boston University has created a set of videos to help orient you to the online resources at your disposal. An introduction to the series is below:

met\_ode\_library\_14\_sp1\_00\_intro video cannot be displayed here. Videos cannot be played from Printable Lectures. Please view media in the module.

All of the videos in the series are available on the [Online Library Resources](#) page, which is also accessible from the Campus Bookmarks section of your Online Campus Dashboard. Please feel free to make use of them.

As Boston University students, you have full access to the BU Library. From any computer, you can gain access to anything at the library that is electronically formatted. To connect to the library, use the link <http://www.bu.edu/library>. You may use the library's content whether you are connected through your online course or not, by confirming your status as a BU community member using your Kerberos password.

Once in the library system, you can use the links under "Resources" and "Collections" to find databases, eJournals, and eBooks, as well as search the library by subject. Some other useful links follow:

Go to [Collections](#) to access eBooks and eJournals directly.

If you have questions about library resources, go to [Ask a Librarian](#) to email the library or use the live-chat feature.

To locate course eReserves, go to [Reserves](#).

Please note that you are not to post attachments of the required or other readings in the water cooler or other areas of the course, as it is an infringement on copyright laws and department policy. All students have access to the library system and will need to develop research skills that include how to find articles through library systems and databases.

## Free Tutoring Service

Free online tutoring services by Tutor.com are available to BU online students for the duration of their eligible online course. Tutor.com is a web-based service that provides an online writing lab and access to on-demand and scheduled tutoring sessions for writing, math, business, coding languages, and other subjects. Students can submit a question to a tutor, submit a paper for feedback about writing and grammar, or schedule a live session with a tutor.

You can log in directly to Tutor.com from Blackboard Online Campus by clicking the link in the left-hand navigation menu within your online course. All activity in the Tutor.com classroom is recorded for learner review and quality control. Transcripts will be available afterward in My Account under My Locker in your Tutor.com account.

### Please Note

Tutor.com services may be used only for current Boston University online courses and career services. Use of this service for purposes other than current coursework or career services may result in deactivation of your Tutor.com account.

## Microsoft Azure Dev Tools for Teaching

Microsoft Azure Dev Tools for Teaching is a Microsoft program that supports technical education by providing access to Microsoft software for learning, teaching, and research purposes. Our membership allows faculty and students currently enrolled in MET courses to obtain certain Microsoft products free of charge. All MET students are granted access to download the software for the duration of their study at MET College.

FAQ and basic information are at [Microsoft Azure Dev Tools for Teaching](#), (You may have to enter your personal BU login credentials to access this page.)

## VMware Workstation Pro and Fusion

---

As VMware Academy products become integrated into Broadcom, VMware Workstation and Fusion are now freely available for students who wish to download and run the labs on their own hardware—not using the MET IT Virtual Lab. See the following for more information: [VMware Desktop Hypervisor Pro Apps Now Available for Personal Use](#).

## Study Guide

---

This course starts on a **Tuesday**. The modules in this course run from **Tuesday to Monday**.

The following material is collected here for your convenience but the required readings, discussion details, and assignment particulars can be found within the modules, in the "Discussion" section of the course, and in the "Assignment" sections respectively.

### **In preparation for this course you should read:**

***Forensic Examination of Digital Evidence: A Guide for Law Enforcement***

NCJ 199408, April 2004, Special Report, National Institute of Justice

***Digital Evidence in the Courtroom: A Guide for Law Enforcement & Prosecutors***

This course requires readings provided through library eReserves. The [Course eReserves CS 693](#) reading list is also available in the left-side course menu. The list will open in a new browser window.

### **Live Classroom Sessions**

There will be synchronous Live Classroom discussions in each module. These sessions will be archived for further viewing. In order to participate in these discussions or to access the archived sessions, you will need to go to the Live Classrooms/Offices links.

## Module 1 Study Guide and Deliverables

### September 3 - September 9

- Readings:
- Online lecture material
  - *Guide to Computer Forensics and Investigations*
    - *Module 1: Understanding the Digital Forensics Profession and Investigations*
  - *Optional: File System Forensic Analysis*, Chapter 1 (Available in eReserves.)
- Discussions:
- Please post your introduction as soon as possible. Discussion 1 postings end **Tuesday, September 10 at 6:00 AM ET**
- Assignments:
- Assignment 1 due **Tuesday, September 10 at 6:00 AM ET**
- Labs:
- Please try to login to the MET IT Hosted Virtual Lab machine this week.
- Live Classrooms:
- **Tuesday, September 3 from 9:00-10:00 PM ET**
  - **Sunday, September 7 from 3:30-4:30 PM ET**

## Module 2 Study Guide and Deliverables

### September 10 - September 16

- Readings:
- Online lecture material
  - *Guide to Computer Forensics and Investigations*
    - *Module 3: Investigators Laboratory and Digital Forensics Tools*
    - *Module 6: Working with Microsoft File Systems and the Windows Registry*
  - Read [FTK 8.0 User Guide](#)
  - *Optional: File System Forensic Analysis*, Chapter 2 (Available in eReserves.)
- Discussions:
- There are no discussions this week.
- Assignments:
- There are no assignments due this week.
- Labs:
- Module 2 Lab due **Tuesday, September 17 at 6:00 AM ET**
- Live Classrooms:
- **Tuesday, September 10 from 9:00-10:00 PM ET**
  - **Sunday, September 15 from 3:30-4:30 PM ET**

## Module 3 Study Guide and Deliverables September 17 - September 23

- Readings:
- Online lecture material
  - *Guide to Computer Forensics and Investigations*:
    - *Module 4: Data Acquisition*
    - *Module 11: Cloud Forensics and the Internet of Everything*
  - Optional: *File System Forensic Analysis*, Chapter 3 (Available in eReserves.)
  - *NIST, Cloud Computing Forensic Science Challenges* (Available in eReserves.)
- Discussions:
- There are no discussions this week.
- Assignments:
- Assignment 3 due **Tuesday, September 24 at 6:00 AM ET**
- Labs:
- Module 3 Lab due **Tuesday, September 24 at 6:00 AM ET**
- Live Classrooms:
- **Tuesday, September 17 from 9:00-10:00 PM ET**
  - **Sunday, September 22 from 3:30-4:30 PM ET**

## Module 4 Study Guide and Deliverables September 24 - September 30

- Readings:
- Online lecture material
  - *Guide to Computer Forensics and Investigations*:
    - *Module 5: Processing Crime and Incident Scenes*
    - *Module 8: Media Files & Digital Forensics*
- Discussions:
- There are no discussions this week.
- Assessments:
- The midterm exam opens on **Tuesday, September 24 at 6:00 AM ET** and is due on **Sunday, October 6 at 6:00 AM ET**

This **open book** test covers all assigned material across the first three weeks of the course. This includes all book, module, and non-optional

supplemental texts assigned during these weeks. Refer to the live classroom mid-term review for details.

- Labs:
- Module 4 Lab due **October 1 at 6:00 AM ET**
- Live Classrooms:
- **Tuesday, September 24 from 9:00-10:00 PM ET**
  - **Sunday, September 29 from 3:30-4:30 PM ET**

## Module 5 Study Guide and Deliverables October 1 - October 7

- Readings:
- Online lecture material
  - *Guide to Computer Forensics and Investigations*:
    - *Module 9: Virtual Machine Forensics & Live Aquisitions Forensics*
    - *Module 10: Network Forensics*
    - *Module 13: Email and Social Media Investigations*
  - *Investigations Involving the Internet and Computer Networks* (DOJ Special Report) (Available in eReserves.)
  - [\*Tactics, Techniques, and Procedures of Indicted APT40 Actors Associated with China's MSS Hainan State Security Department\*](#) (CISA Cybersecurity Advisory, July 20, 2021)
  - [\*Cybersecurity Incident & Vulnerability Response Playbooks\*](#) (CISA, November 2021) (Available in eReserves)
- Discussions:
- Discussion 5 postings end **Tuesday, October 8 at 6:00 AM ET**
- Assignments:
- There are no assignments due this week.
- Labs:
- Module 5 Lab due **Tuesday, October 8 at 6:00 AM ET**
- Live Classrooms:
- **Tuesday, October 1 from 9:00-10:00 PM ET**
  - **Sunday, October 6 from 3:30-4:30 PM ET**

## Module 6 Study Guide and Deliverables October 8 - October 15

- Readings:
- Online lecture material

- *Guide to Computer Forensics and Investigations*:
  - *Module 2: Report Writing and Testimony for Digital Investigations*
  - *Module 12: Mobile Device Forensics*

Discussions: • There are no discussions this week.

Assignments: • There are no assignments due this week.

Course Evaluation: Please complete the [course evaluation](#) once you receive an email or Blackboard notification indicating the evaluation is open. Your feedback is important to MET, as it helps us make improvements to the program and the course for future students.

Labs: • Module 6 Lab due **Tuesday, October 15 at 6:00 AM ET**

Live Classrooms: • **Tuesday, October 8 from 9:00-10:00 PM ET**  
• **Sunday, October 13 from 3:30-4:30 PM ET**

## Final Exam Details

The Final Exam is a proctored exam available from **Wednesday, October 16 at 6:00 AM ET to Saturday, October 19 at 11:59 PM ET**. The exam is only accessible during the final exam period. You can access it from the Assessments section of the course.

The Computer Science department requires that all final exams be administered using an online proctoring service that you will access via your course in Blackboard. Detailed instructions regarding your proctored exam will be forthcoming from the Assessment Administrator. You will be responsible for scheduling your own appointment within the defined exam window.

Final Exam Duration: **3 hours**

This is an **open book/open notes exam**. However, you cannot bring calculators to the exam.

You can take the exam only once. The exam features **essay questions and multiple choice or true/false questions**.

## Course Grading Structure

---

Please check the **Study Guide** in the syllabus for Live Classroom dates and specific due dates for assignments and assessments.

Each module in this course will cover one or more core digital forensic principles, along with details on the collection, preservation, and analysis of digital evidence. Most modules will also have at least one lab component. Students will be able to demonstrate their understanding of the fundamental of digital forensics through these assignments.

## Grading Policy

All students will be expected to demonstrate digital forensics knowledge and techniques. To obtain an exceptional grade you have to exceed expectations in your projects, quizzes and assignments.

## Grading Structure and Distribution

The grade for the course is determined by the following:

Grading Scheme	
Homework Assignments	10%
Labs	25%
Discussions/Participation	10%
Midterm Examination	25%
Final Examination	30%

Grade	Approximate Numeric Grade Range	Grade Points
A	95–100	4.0
A-	91–94.9	3.7
B+	87–90.9	3.3
B	83–86.9	3.0
B-	80–82.9	2.7
C+	75–79.9	2.3

C	65–74.9	2.0
C–	60–64.9	1.7
D	50–59.9	1.0
Fail	< 50	0

## Course Requirements

### Participation

- Graded Discussions - all discussions will be graded on a 100-point scale.

### Assignments and Labs

Assignments will be assigned during the semester to reinforce topics presented during classroom lectures. Homework assignments and student submissions will be facilitated using the Boston University online learning management system. All homework must be the original effort of the student submitting the assignment.

### Expectations

Many learning activities require sharing your assignments and opinions with your classmates. For example, you may be given a set of criteria on the basis of which to evaluate other classmates' assignments, and asked to submit the results to your facilitator by a specified date. It is, therefore, very important that you, as well as your classmates, submit your assignments on a timely basis. Timely submission by all will result in each of you being able to evaluate each other's assignments. Due dates will be indicated for each assignment in the Assignments section of the course.

### Delays

If, for any reason, you are unable to meet any assignment deadline, contact your Course Facilitator. All assignments must be completed and must be turned in by their due dates and due times. Extensions may be granted, though only under mitigating circumstances.

## Discussion Grading Rubric

---

Graded discussion periods are held From Tuesday of each module until 6:00 AM ET on Tuesday of the following module. You are certainly welcome to continue a discussion past the grading period, but additional material posted beyond the due date will not affect your discussion grade. The discussion grading rubric below is the guide we use to evaluate your discussion contributions. You will receive a grade and comments from your facilitator for each module's discussions.

<b>Discussion Grading Rubric</b>					
<b>Criteria</b>	<b>5–6</b>	<b>6–7</b>	<b>7–8</b>	<b>8–9</b>	<b>9–10</b>
<b>Participation</b>	Very limited participation	Participation generally lacks frequency or relevance	Reasonably useful relevant participation during the discussion period	Frequently relevant and consistent participation throughout the discussion period	Continually relevant and consistent participation throughout the discussion period
<b>Community</b>	Mostly indifferent to discussion	Little effort to keep discussions going or provide help	Reasonable effort to respond thoughtfully, provide help, and/or keep discussions going	Often responds thoughtfully in a way that frequently keeps discussions going and provides help	Continually responds thoughtfully in a way that consistently keeps discussions going and provides help
<b>Content</b>	No useful, on-topic, or interesting information, ideas, or analysis	Hardly any useful, on-topic, or interesting information, ideas, or analysis	Reasonably useful, on-topic, and interesting information, ideas, and/or analysis	Frequently useful, on-topic, and interesting information, ideas, and analysis	Exceptionally useful, on-topic, and interesting information, ideas, and analysis
<b>Reflection and Synthesis</b>			No significant effort to clarify, summarize, or synthesize	Contributes to group's effort to clarify, summarize, or synthesize	Leads group's effort to clarify, summarize, or synthesize topics

			topics raised in discussions	topics raised in discussions	raised in discussions
--	--	--	------------------------------	------------------------------	-----------------------

# Academic Conduct Policy

---

Please visit Metropolitan College's website for the full text of the department's [Academic Conduct Code](#).

## A Definition of Plagiarism

“The academic counterpart of the bank embezzler and of the manufacturer who mislabels products is the plagiarist: the student or scholar who leads readers to believe that what they are reading is the original work of the writer when it is not. If it could be assumed that the distinction between plagiarism and honest use of sources is perfectly clear in everyone’s mind, there would be no need for the explanation that follows; merely the warning with which this definition concludes would be enough. But it is apparent that sometimes people of goodwill draw the suspicion of guilt upon themselves (and, indeed, are guilty) simply because they are not aware of the illegitimacy of certain kinds of “borrowing” and of the procedures for correct identification of materials other than those gained through independent research and reflection.”

“The spectrum is a wide one. At one end there is a word-for-word copying of another’s writing without enclosing the copied passage in quotation marks and identifying it in a footnote, both of which are necessary. (This includes, of course, the copying of all or any part of another student’s paper.) It hardly seems possible that anyone of college age or more could do that without clear intent to deceive. At the other end there is the almost casual slipping in of a particularly apt term which one has come across in reading and which so aptly expresses one’s opinion that one is tempted to make it personal property.”

“Between these poles there are degrees and degrees, but they may be roughly placed in two groups. Close to outright and blatant deceit-but more the result, perhaps, of laziness than of bad intent-is the patching together of random jottings made in the course of reading, generally without careful identification of their source, and then woven into the text, so that the result is a mosaic of other people’s ideas and words, the writer’s sole contribution being the cement to hold the pieces together. Indicative of more effort and, for that reason, somewhat closer to honest, though still dishonest, is the paraphrase, and abbreviated (and often skillfully prepared) restatement of someone else’s analysis or conclusion, without acknowledgment that another person’s text has been the basis for the recapitulation.”

The paragraphs above are from H. Martin and R. Ohmann, *The Logic and Rhetoric of Exposition, Revised Edition*. Copyright 1963, Holt, Rinehart and Winston.

# Academic Conduct Code

## I. Philosophy of Discipline

The objective of Boston University in enforcing academic rules is to promote a community atmosphere in which learning can best take place. Such an atmosphere can be maintained only so long as every student believes that his or her academic competence is being judged fairly and that he or she will not be put at a disadvantage because of someone else's dishonesty. Penalties should be carefully determined so as to be no more and no less than required to maintain the desired atmosphere. In defining violations of this code, the intent is to protect the integrity of the educational process.

## II. Academic Misconduct

Academic misconduct is conduct by which a student misrepresents his or her academic accomplishments, or impedes other students' opportunities of being judged fairly for their academic work. Knowingly allowing others to represent your work as their own is as serious an offense as submitting another's work as your own.

## III. Violations of this Code

Violations of this code comprise attempts to be dishonest or deceptive in the performance of academic work in or out of the classroom, alterations of academic records, alterations of official data on paper or electronic resumes, or unauthorized collaboration with another student or students. Violations include, but are not limited to:

- A. **Cheating on examination.** Any attempt by a student to alter his or her performance on an examination in violation of that examination's stated or commonly understood ground rules.
- B. **Plagiarism.** Representing the work of another as one's own. Plagiarism includes but is not limited to the following: copying the answers of another student on an examination, copying or restating the work or ideas of another person or persons in any oral or written work (printed or electronic) without citing the appropriate source, and collaborating with someone else in an academic endeavor without acknowledging his or her contribution. Plagiarism can consist of acts of commission-appropriating the words or ideas of another-or omission failing to acknowledge/document/credit the source or creator of words or ideas (see below for a detailed definition of plagiarism). It also includes colluding with someone else in an academic endeavor without acknowledging his or her contribution, using audio or video footage that comes from another source (including work done by another student) without permission and acknowledgement of that source.
- C. **Misrepresentation or falsification of data** presented for surveys, experiments, reports, etc., which includes but is not limited to: citing authors that do not exist; citing interviews that never took place, or field work that was not completed.
- D. **Theft of an examination.** Stealing or otherwise discovering and/or making known to others the contents of an examination that has not yet been administered.
- E. **Unauthorized communication during examinations.** Any unauthorized communication may be considered prima facie evidence of cheating.

- F. **Knowingly allowing another student to represent your work as his or her own.** This includes providing a copy of your paper or laboratory report to another student without the explicit permission of the instructor(s).
- G. **Forgery, alteration, or knowing misuse of graded examinations, quizzes, grade lists, or official records of documents,** including but not limited to transcripts from any institution, letters of recommendation, degree certificates, examinations, quizzes, or other work after submission.
- H. **Theft or destruction of examinations or papers** after submission.
- I. **Submitting the same work in more than one course** without the consent of instructors.
- J. **Altering or destroying another student's work or records,** altering records of any kind, removing materials from libraries or offices without consent, or in any way interfering with the work of others so as to impede their academic performance.
- K. **Violation of the rules governing teamwork.** Unless the instructor of a course otherwise specifically provides instructions to the contrary, the following rules apply to teamwork: 1. No team member shall intentionally restrict or inhibit another team member's access to team meetings, team work-in-progress, or other team activities without the express authorization of the instructor. 2. All team members shall be held responsible for the content of all teamwork submitted for evaluation as if each team member had individually submitted the entire work product of their team as their own work.
- L. **Failure to sit in a specifically assigned seat during examinations.**
- M. **Conduct in a professional field assignment that violates the policies and regulations of the host school or agency.**
- N. **Conduct in violation of public law occurring outside the University that directly affects the academic and professional status of the student, after civil authorities have imposed sanctions.**
- O. **Attempting improperly to influence the award of any credit, grade, or honor.**
- P. **Intentionally making false statements to the Academic Conduct Committee or intentionally presenting false information to the Committee.**
- Q. **Failure to comply with the sanctions imposed under the authority of this code.**

## Important Message on Final Exams

---

Dear Boston University Computer Science Online Student,

As part of our ongoing efforts to maintain the high academic standard of all Boston University programs, including our online MSCIS degree program, the Computer Science Department at Boston University's Metropolitan College requires that each of the online courses includes a proctored final examination.

By requiring proctored finals, we are ensuring the excellence and fairness of our program. The final exam is administered online.

Specific information regarding final-exam scheduling will be provided approximately two weeks into the course. This early notification is being given so that you will have enough time to plan for where you will take the final exam.

I know that you recognize the value of your Boston University degree and that you will support the efforts of the University to maintain the highest standards in our online degree program.

Thank you very much for your support with this important issue.

Regards,

Professor Lou Chitkushev, Ph.D.  
Associate Dean for Academic Affairs  
Boston University Metropolitan College

## Who's Who: Roles and Responsibilities

---

You will meet many BU people in this course and program. Some of these people you will meet online, and some you will communicate with by email and telephone. There are many people behind the scenes, too, including instructional designers, faculty who assist with course preparation, and video and animation specialists.

## People in Your Online Course in Addition to Your Fellow Students

**Your Facilitator.** Our classes are divided into small groups, and each group has its own facilitator. We carefully select and train our facilitators for their expertise in the subject matter and their excellence in teaching. Your facilitator is responsible for stimulating discussions in pedagogically useful areas, for answering your questions, and for grading homework assignments, discussions, term projects, and any manually graded quiz or final-exam questions. If you ask your facilitator a question by email, you should get a response within 24 hours, and usually faster. If you need a question answered urgently, post your question to one of the urgent help topics, where everyone can see it and answer it.

**Your Professor.** The professor for your course has primary responsibility for the course. If you have any questions that your facilitator doesn't answer quickly and to your satisfaction, then send your professor an email in the course, with a cc to your facilitator so that your facilitator is aware of your question and your professor's response.

**Your Lead Faculty and Student Support Administrator, Jennifer Sullivan.** Jen is here to ensure you have a positive online experience. You will receive emails and announcements from Jen throughout the semester. Jen represents Boston University's university services and works for BU Virtual. She prepares students for milestones

such as course launch, final exams, and course evaluations. She is a resource to both students and faculty. For example, Jen can direct your university questions and concerns to the appropriate party. She also handles general questions regarding Online Campus functionality for students, faculty, and facilitators, but she does not provide tech support. She is enrolled in all classes and can be contacted within the course through Online Campus email as it is running. You can also contact her by external email at [jensul@bu.edu](mailto:jensul@bu.edu) or call (617) 358-1978.

## People Not in Your Online Course

Although you will not normally encounter the following people in your online course, they are central to the program. You may receive emails or phone calls from them, and you should feel free to contact them.

***Your Computer Science Department Online Program Coordinator, Annie Imperato.*** Annie administers the academic aspects of the program, including admissions and registration. You can ask her questions about the program, registration, course offerings, graduation, or any other program-related topic. She can be reached at [metcsol@bu.edu](mailto:metcsol@bu.edu) or (617) 353-2566.

***Your Computer Science Department Program Manager, Crystal Kelley.*** Crystal is responsible for administering most aspects of the Computer Science Department. You can reach Crystal at [kelleycr@bu.edu](mailto:kelleycr@bu.edu) or (617) 353-2566.

***Andrew Gorlin, Academic Advisor.*** Reviews requests for transfer credits and waivers. Advises students on which courses to take to meet their career goals. You can reach Andrew at [asgorlin@bu.edu](mailto:asgorlin@bu.edu), or (617)-353-2566.

***Professor Guanglan Zhang, Computer Science Department Chairman.*** You can reach Professor Zhang at [guanglan@bu.edu](mailto:guanglan@bu.edu) or at 617-358-2566.

***Professor Lou T. Chitkushev, Associate Dean for Academic Affairs, Metropolitan College.*** Dr. Chitkushev is responsible for the academic programs of Metropolitan College. Contact Professor Chitkushev with any issues that you feel have not been addressed adequately. The customary issue-escalation sequence after your course facilitator and course faculty is Professor Temkin, and then Professor Chitkushev.

***Professor Tanya Zlateva, Metropolitan College Dean.*** Dr. Zlateva is responsible for the quality of all the academic programs at Boston University Metropolitan College.

## Disability and Access Services

---

In accordance with University policy, every effort will be made to accommodate students with respect to speech, hearing, vision, or other disabilities. Any student who may need an accommodation for a documented disability

should contact [Disability and Access Services](#) at 617-353-3658 or at [access@bu.edu](mailto:access@bu.edu) for review and approval of accommodation requests.

Once a student receives their accommodation letter, they must send it to their instructor and/or facilitator each semester. They must also send a copy to their Faculty & Student Support Administrator, who may need to update the course settings to ensure accommodations are in place. Accommodations cannot be implemented if the student does not send their letter.

## Netiquette

---

BU Virtual has produced a netiquette guide to help you understand the potential impact of your communication style.

Before posting to any discussion forum, sending an email, or participating in any course or public area, please consider the following:

### Ask Yourself...

- How would I say this in a face-to-face classroom or if writing for a newspaper, public blog, or wiki?
- How would I feel if I were the reader?
- How might my comment impact others?
- Am I being respectful?
- Is this the appropriate area or forum to post what I have to say?

## Writing

When you are writing, please follow these rules:

- **Stay polite and positive in your communications.** You can and should disagree and participate in discussions with vigor; however, when able, be constructive with your comments.
- **Proofread your comments before you post them.** Remember that your comments are permanent.
- **Pay attention to your tone.** Without the benefit of facial expressions and body language, your intended tone or the meaning of the message can be misconstrued.
- **Be thoughtful and remember that classmates' experience levels may vary.** You may want to include background information that is not obvious to all readers.
- **Stay on message.** When adding to existing messages, try to maintain the theme of the comments previously posted. If you want to change the topic, simply start another thread rather than disrupt the current conversation.

- **When appropriate, cite sources.** When referencing the work or opinions of others, make sure to use correct citations.

## Reading

When you are reading your peers' communication, consider the following:

- **Respect people's privacy.** Don't assume that information shared with you is public. Your peers may not want personal information shared. Please check with them before sharing their information.
- **Be forgiving of other students' and instructors' mistakes.** There are many reasons for typos and misinterpretations. Be gracious and forgive other's mistakes or point them out privately and politely.
- **If a comment upsets or offends you, reread it and/or take some time before responding.**

### Important Note

Don't hesitate to let your instructor or your faculty and student support administrator know if you feel others are inappropriately commenting in any forum.

All Boston University students are required to follow academic and behavioral conduct codes. Failure to comply with these conduct codes may result in disciplinary action.

## Registration Information and Important Dates

[View the drop dates for your course.](#)

[Withdraw or drop your course.](#)

- If you are dropping down to zero credits for a semester, please contact your college or academic department.
- **Nonparticipation in your online course does not constitute a withdrawal from the class.**
- If you are unable to drop yourself on MyBU Student Portal, please contact your college or academic department.
- Online courses will open to students in Blackboard on the first day of the term.
- Online courses close to students three weeks after the last day of the term. Please plan to download and save any assignments or material you'd like to keep by that date.

# Technical Support

---

## Help Desk

Boston University IT Help Desk can be reached via email ([ithelp@bu.edu](mailto:ithelp@bu.edu)), phone (617-353-4357) or by filling out the [support form](#) on their website. For IT Help Desk hours of operation, visit the [contact page](#). If you are contacting IT outside of business hours, you will receive a response the following day. Visit the BU Information Services & Technology (IS&T) [news page](#) for announcements and system-wide alerts.

## Technology Requirements and Resources

To successfully view all content in your course, it is important that your computer setup meets the necessary minimum technical requirements. Certain courses with specific functionality or educational tools may require additional technical requirements, these details can be found on the Course Resources or Materials page in the Syllabus.

## System Requirements

- Access to reliable, high-speed internet: Check your [internet connection speeds](#)
- Learning Management System (Blackboard): [System Requirements](#)
- Synchronous live classroom sessions (Zoom): [System requirements for Windows, macOS, and Linux](#)
- Courses with proctored exams (Examity): [System requirements for Windows, macOS](#)
- Two-factor authentication service for BU applications: [Duo Security](#)

## Downloads

- Recommended web browsers: [Mozilla Firefox](#) or [Google Chrome](#)
- Synchronous live classroom sessions (Zoom): [Zoom download center](#)
- Courses with proctored exams (Examity): Desktop or laptop computer with [Google Chrome](#) or [Microsoft Edge](#)
- Two-factor authentication service for BU applications (Duo Security): optional [Duo Mobile download for iOS](#) or [Duo Mobile download for Android](#)

## Recommended Hardware

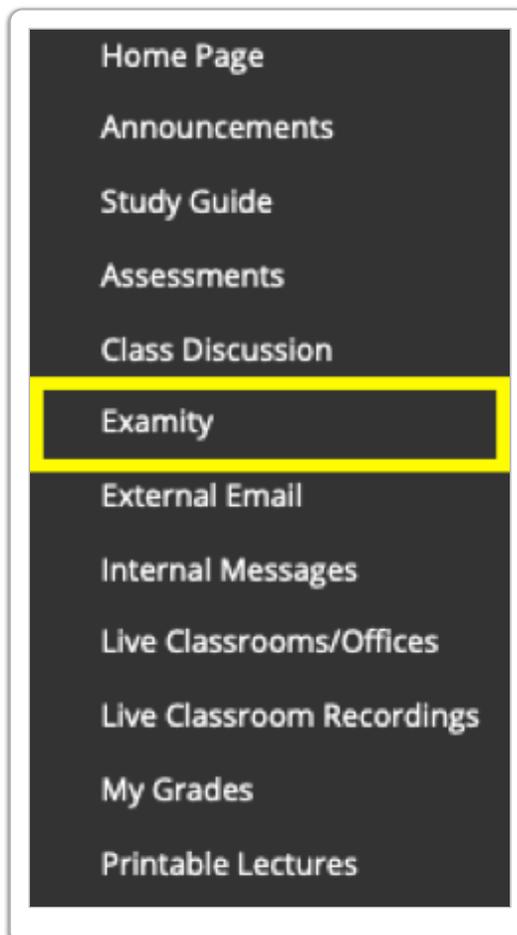

- Desktop or laptop computer recommended for best experience, some course functionality including proctored exams are not compatible with phones or tablets
- Headset with built-in microphone for high quality audio during live classroom sessions
- Webcam (required for proctored exams)
- Working computer speakers (required for proctored exams)

## Clearing Your Browser Cache

It is recommended that users periodically [clear their browser cache](#) to ensure they are viewing the most current course content. Completing this step often resolves login issues and problems viewing course materials.

## Proctored Exams

Courses with proctored exams will have an Examity link in the left-hand course navigation. This link will not appear until scheduling opens. The BU Virtual Assessment Administrator will notify you when it is time to schedule your exam. Details on Examity's technical requirements and how to schedule your exam are in the Proctored Exam Information module on the course homepage. The Assessment Administrator can be reached at [pexams@bu.edu](mailto:pexams@bu.edu). Examity support is available 24/7 via phone (855-392-6489), email ([support@examity.com](mailto:support@examity.com)), or 'live chat' when logged in to the Examity dashboard.

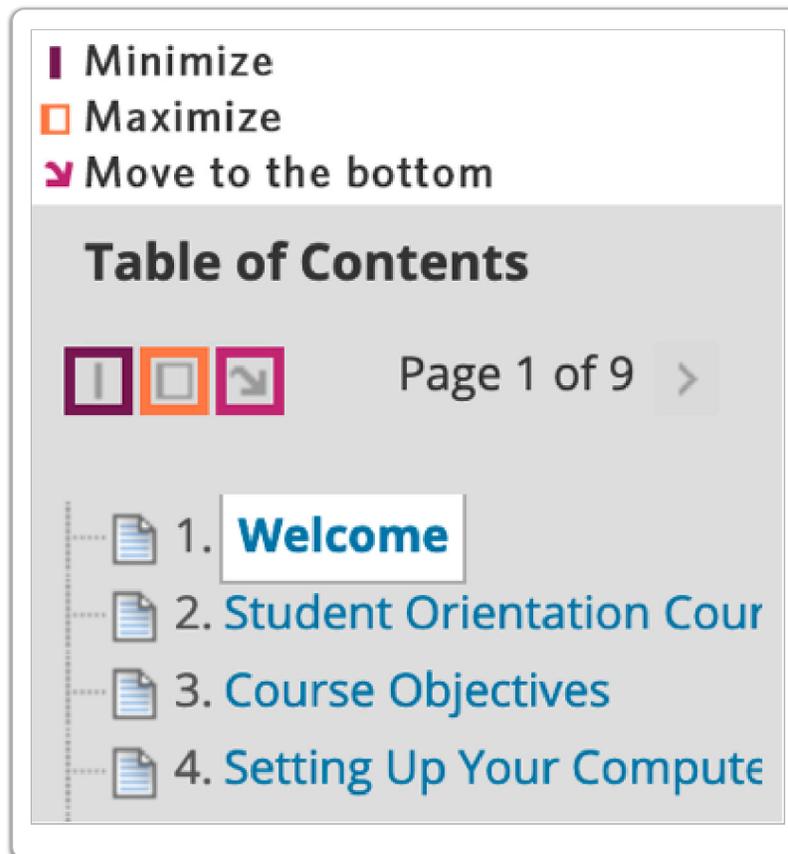

# Navigating Courses

While navigating through your courses it's important to note that all hyperlinks will open in a new browser window.

The Blackboard navigation tools—shown in the images below—allow you to show and hide both the Course Menu and the Table of Contents which can free up space when moving through weekly lecture material.

The Table of Contents may contain folders that open and close (+ and – signs) and may conceal some pages. To avoid missing content pages, you are advised to use the next- and previous-page buttons (and icons) in the top-right corner of the learning content.

Navigation tools for the Table of Contents are shown in the image below:

Clicking the space between the Course Menu and the Table of Contents allows you to show or hide the Course Menu on the left:

The screenshot shows a Blackboard course interface. On the left is a dark navigation menu with the following items: **DE Student Orientation (2020 Spring 2)** (with a home icon), Home Page, Announcements, Assessments, Assignments, Calendar, Class Discussion, External Email, and Internal Messages. On the right is a 'Table of Contents' section, which is 'Page 1 of 9'. Below the page indicator is a yellow button labeled 'Hide Course Menu'. The table of contents lists nine items, each with a document icon: 1. **Welcome** (highlighted with a white box), 2. Student Orientation Cou, 3. Course Objectives, 4. Setting Up Your Comput, 5. Blackboard App for Onli, 6. Disability Services, 7. Netiquette, 8. Registration Informatior, and 9. Technical Support.
