LEAD LEGISLATION

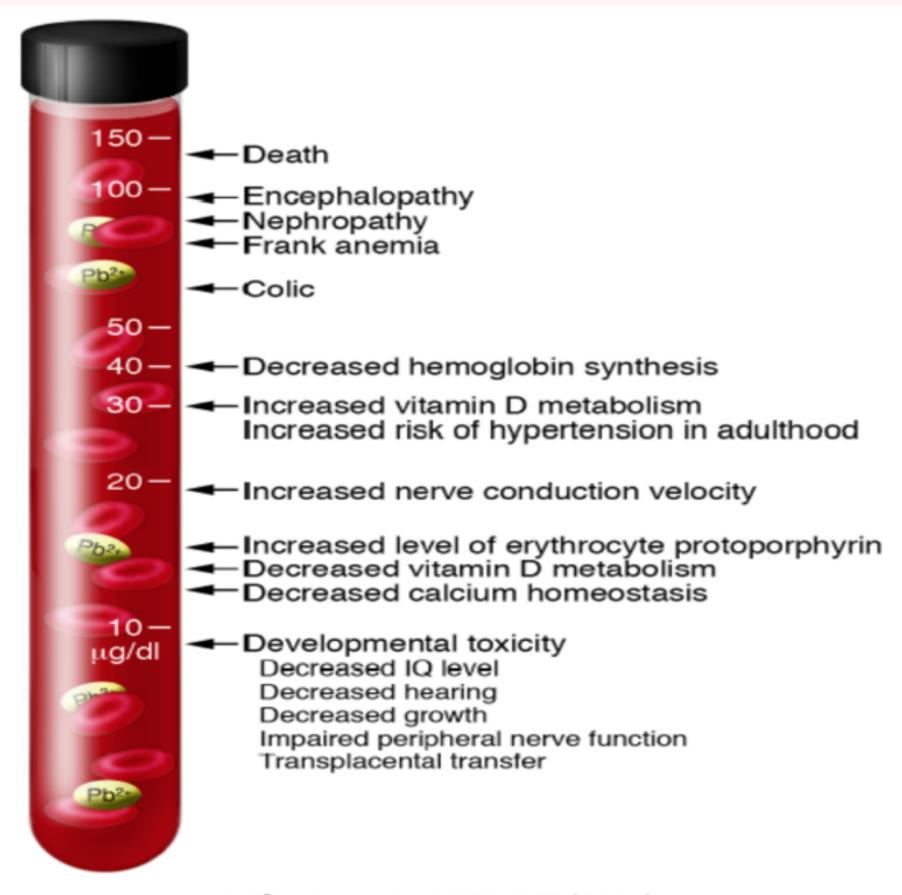

Sen. Patricia Jehlen (s.955) and Rep. David LeBeouf (H.1491)

An Act Enhancing Justice for Families Harmed by Lead

- Allows for liability from foreseeable harm from lead
- Targets those who have failed to uphold standard of care
- Lead poisoning will continue to exists until we remove it form our environment

WHAT IS LEAD

- High Density
- Low melting point
- **>** Low cost
- **Neurotoxin**
- > Interferes with nervous system
- **No treatment or Cure**

J. Clin. Invest. 116:853–857 (2006)

David H.A. Leibronf (H.1491) This feld allows Rebelty for creating formerable have from lead other placing it in commerce and failing to take action to previous it. It tempers those who have failed to uphold the standard of care required toward commerce and their affiliates. Definations correctly arred hisblity by claiming that plaintiff ware excelent to the specific chain of committee of highly from these who placed had in commerce to the specific person biganed by it. However, two-righty placing a hareful advances into commerce is a medians act which should be grounds to hald actors accountable. Current State of The Issue: What the bill is in response is: • Lead is a restruitly occurring nurrotonia, that never breaks down. • No treatment or care has been found and children who are impacted by lead can never get back what they lost, leading to problems in development and adulthood (American Academy of Polistics). • Lead poisoning has the greatest effect on children under the age of 6 and progrant females. • In children, according to the Environmental Protection Agency (EPA) lead poisoning is known to cause behavioral issues, tower Ugs, hyperactivity, dewor growth, bearing problems and accessing and can ever core, or	Why this bill: • Lead poisoning have and will persist in horses and general commerce until we remove it from our environment. • People and beatmesses who have profited from knowingly endangering individuals and families by exposing them to lead should compensate these harmed by this wrought act. • Making producers pay and face aware consequences will deter future reproductive acts and thus allow rhousends of children in the future to grow and develop without any fear of lead interfering. Whe should near; • No responsible beatmesses are targeted by this act, nor landlerds, schools, retailers, and guardians - only those who caused the lead to be in products sold in commerce with knowledge of its labely if effects. Sammary of Eights mustifered by this law: • People have a right not to be poisoned. Producers have a duty to act responsibly towards consumers and in a democratic society should be held accountable for anjust actions.
